Personality Assessment

Reading: H & O Chapter 1

Terms you should know.
Measurement Techniques

    Observer Ratings

    Self-report inventories

    Interviews

    Dream Analysis

    Behavioral Analysis

    Projective Tests

Reliability

Validity

Concepts you should understand.

1.   Suppose there was an intermittent personality trait that kept reoccurring over time. What problems would you have measuring it?

2.   Be prepared to list the strengths and weaknesses of each of the personality measurement techniques.
